

HAZARDOUS HOUSEHOLD WASTE RECYCLING

Oct 1-4, 2019 8am-4pm

DO YOU HAVE HAZARDOUS HOUSEHOLD WASTE TO DISPOSE OF?

These materials can be harmful and should never go into your community's regular trash. One should **NEVER** place these hazardous household wastes (HHW) down a sink or storm drain - they could contaminate groundwater or even Lake Superior. Please drop off HHW at the Maintenance Building near the dumpsters Oct 1-4, from 8am-4pm. This collection is meant for Bay Mills tribal members.

Collection Oct 1-4, 2019 8am-4pm

This collection will be concurrent with Fall Clean-up. Those dumpsters will be available at the Maintenance Building. The old tire drop-off is also located at the Maintenance Building until Oct 15, 2019. If you have questions, please contact Biological Services at 906-248-8652.
