

I am excited to announce that I am seeking re-election for Treasurer of the Bay Mills Indian Community in the 2019 Tribal elections, and humbly ask for your support.

I appreciate all the work that our current executive council has achieved and want to continue being part of the team. I believe that our team has completed a number of initiatives for the betterment of our community, but there is more work to be done such as; building our new health center, protecting our fishing rights, reforming the constitution (get out from under the BIA and change election lengths and terms), and diversifying our economy (where can hemp take us).

As Vice-Chair of the Ojibwe Charter School board, I also want to see our children get a new school building.

My parents are Darryl and Edith Cameron and my grandparents are Harold and Marie Cameron. I live and work in Bay Mills and have raised a family here with my husband, Simon Jahnke, who works as Lead Slot Technician at Bay Mills Resort and Casino. We have three children: Chelsey, Malikahi, and Savannah. Chelsey is married to Nick Moon and works as a Health Care Enrollment Specialist at Bay Mills Health Center and is currently pursuing a Bachelor's in Psychology at Central Michigan University. Malikahi works as a Count/Pull Team member at Bay Mills Resort and Casino. Savannah is a dual enrolled senior at Bay Mills Ojibwe Charter School and Bay Mills Community College. I also have three gorgeous grandchildren: Blake, Adria, and Susie.

I have over 24 years of experience working in both casino (enterprise) and governmental departments of Bay Mills. My career in Bay Mills started working on "Hank's Crew" during the summers. I began working at Kings Club Casino in June of 1993 and stayed for 20 years. I began as a Change Person, and transitioned into the bar as a Cocktail Waitress, Bartender, and ultimately Food and Beverage Manager. I also worked as a fill-in Shift Supervisor. After obtaining my nursing degree, I worked as a Registered Nurse at War Memorial Hospital within their Behavioral Health unit and their Medical/Surgical unit. I am currently a Supervisor Case Manager at the Bay Mills Medical Center.

I graduated from Bay Mills Community College in 2008 with an Associate's Degree of Applied Science in General Studies. I then graduated from Lake Superior State University in 2013 with a Bachelor's Degree in Nursing. I am currently pursuing a Master's of Nursing at Ferris State University, with a double focus of Administration and Education.

I am committed to personal and shared goals, attentive to voices and opinions of all members, and I am dedicated to helping Bay Mills thrive as a community. I have built a career out of helping people because my overall genuine interest is to support society medically, educationally, and communally.

Regardless of the election outcomes, Miigwetch for allowing me to serve these past two years.

I want to wish the best of luck to all the candidates.
